

### **EnergieTeam Schouwen-Duiveland helps save energy**

Reducing energy consumption does not happen overnight. Reducing energy use overnight is not that simple. Where do you start and what do you need to do to achieve it? The Energieteam Schouwen-Duiveland can help you save energy free of charge. They do this by helping you with handy tips you can use right away. And they look at the possibilities of making your home more sustainable with small adjustments. A team of handymen will then carry out these adjustments free of charge.

#### **How does it work?**

1. *Sign up for a visit from the Energy Team*

You can apply online at [www.energiekzeeland.nl/energieteam](http://www.energiekzeeland.nl/energieteam). After registering, someone from the Schouwen-Duiveland Energy Team will contact you to make an appointment.

2. *The Energy Team comes to your home*

The appointment takes about 1.5 to 2 hours. You will be given immediate tips that are important for your situation. Our Energy Team will also bring a list of small jobs that can be done around the house. Think of draft strips or a letterbox draught excluder brush. Up to an amount of 250 euros, you choose materials that are best for your situation together with the Energy Team.

3. *The handyman team can get to work*

After the advice, a team of handymen will visit the house to carry out the improvements free of charge.

4. *Enjoy!*

Comfort and less energy consumption. So don't wait and sign up.
